

OUR MEITY-FUNDED PROJECTS

INTELLIGENT SENSING

- We have developed intelligent sensor modules for effective monitoring and management of environmental pollution.

FLOOD PREVENTION

- We have developed and validated smart water level monitoring solutions, complete with associated alert systems for flood prevention.

WATER MANAGEMENT

- We have created digital systems that effectively monitor and distribute water levels within local areas.

EXPLAINABLE AI (XAI) FOR IOT

- We have developed Explainable AI-based analysis software specifically designed for Internet of Things (IoT) solutions.

Our core mission is centered around the MeitY-funded project:

"Development of digital networking for preventive and predictive environmental and climatic warning solutions Building an Entrepreneurial ecosystem for addressing Environmental Issues."
